Projects

AI-Powered Interview Preparation SaaS Platform | *React.js, Node.js, Express.js, MongoDB, Firebase, Razorpay*
- Built a full-stack AI interview preparation SaaS that parses resumes and generates 50+ personalized technical & HR interview questions.
- Integrated AI feedback (¡3s), Firebase Google Authentication, and a credit-based Razorpay payment system.
- Developed scalable Node.js, Express.js, MongoDB APIs and deployed the application on Render with 200 ms API response time.

ExamAI – AI Study Assistant
- Developed a production-ready AI SaaS platform using MERN Stack, Gemini AI, Stripe, and JWT, featuring AI-generated notes, revision mode, diagrams, charts, and important questions.
- Implemented a credit-based subscription system with Stripe payments and JWT authentication for secure, scalable user access.
- Deployed the full-stack application on Render, delivering AI responses in under 2 seconds with a scalable architecture.
